More Than Efforts

Life In Your Way

You can make the difference A never changing, ongoing situation
Pain covers pain
Don't cheapen the mood
It's all out on the table
Like a noose around my neck
I'm in the middle of a possible disaster
It never ceases this struggle, this pain
Battling between good and evil
I'll have these hands be strong
Set my heart to burn
We won't be held down by compromise
It never made me strong
One battle, one sword, one fight, one war
