

# Kill Your Attitude

## Darwin Deez

So I stay, 6 feet away  
From you at all times  
Until you don't know who I am  
And I match, your movements, match  
Each little toe tap  
Stand off to the side  
Reflecting you in silence You want to play games  
Change your number, and burn your outfit  
Who should I say gains  
When you lose your shit  
Kill your attitude, girl  
You know I'm mad at you still  
And I know your mad at me  
When your batteries, when your batteries die  
Don't come untied It's been a year  
Since you were here  
Well I hope you had fun  
With your arms across your chest  
And I write, you letters, write, write, write (you letters)  
But you don't read them  
You throw them in the garbage You want to play games  
Scrap the doormat, and leave a land mine  
Who should I say gains  
When you lose your mind  
Kill your attitude, girl  
You know I'm mad at you still  
And I know your mad at me  
When your batteries, when your batteries drain  
Don't be a pain You want to play games  
Kill your attitude, girl  
You know I'm mad at you still  
And I know your mad at me  
When your batteries, when your batteries, when your batteries drain  
Don't be a pain
