What Am I Doing Here?

Rational Anthem

This is the last place I should be
We both know where this will lead
I made myself a promise
I should have thought this through
I don't really want this, but maybe I do[Chorus:]
What am i doing here, what are we doing now
I try to move on and you tried to move out
Is anything still the same, did everything disappear
I need you to kiss me, and make it all clear
What am I doing hereWhat kind of love is this we're in
That makes me want you again and again
Everybody's talking, but i've got nothing to say
Am i really lost or just finding my way[Chorus:]
What am i doing here, what are we doing now
I try to move on and you tried to move out
Is anything still the same, did everything disappear
I need you to kiss me, and make it all clear
What am I doing hereIt's the posion, it's the cure
It's the madness we choose to endure
It's the push and it's the pull
I get so tired, of playing the fool[Chorus:]
So, What am i doing here, what are we doing now
I try to move on and you tried to move out
Is anything still the same, did everything disappear
I need you to kiss me, and make it all clear
What am I doing hereWhat am I doing here, I thought we had a plan
So why am I standing just where I am
Is anything the same, did everything disappear
I need you to kiss me and make it all clear
What am I
Who are we
Just what am I doing here
