

# Loki Cat

## Jimmy Chamberlin Complex

a life comes our way  
a death comes our way  
which is the safer place  
I'll tell you who are we to complain  
when God takes things away  
is it enough to confess  
some sadness I gaze into the Sun  
my green eyes burning  
I found no angels  
I found myself  
I found no angels you and you are true  
I can't meet you halfway  
you and you are true  
I can't meet you halfway I found no angels  
I found myself  
I found no angels  
I found myself simple cares they escape me  
if I walk away don't hate me  
I got to see where the pain will take me I found no angels  
I found myself  
I found no angels I found no angels  
I found myself  
I found no angels\* Marcos Spinelli \*
