

Full Forever

Goo Goo Dolls

And I've had to fight
Another blurred affair at night
Eyelids wrestle once again
Never gonna see my friend
Guided by the blindin' white
Have you left home inspite
For knowin' I'm alone tonight?
Waitin' for the light of day
Doesn't matter anyway
It's nothing that I need to say
And I've gone underground
I'm never hanging 'round
I should have made it back again
Why can't the moon stay full forever?
Wednesday's bad, Friday ain't much better
Why can't the moon stay full forever?
Right now she's got nothin' on her mind
Will this Neverland
Free me from its clutchin' hands?
It won't release me
And I've gone underground
Obsessions I have found
I couldn't make it back again
Why can't the moon stay full forever?
Wednesday's bad, Friday ain't much better
Why can't the moon stay full forever?
Right now she's got nothin' on her mind
