

The Fallen Feather

Vision Divine

[Music:Smirnoff,Magnani - Melody:Tordiglione - Lyrics:Magnani]So my life was fading to an end

With that grim sense of nothing surrounding me

My existence flowing away

Lost in the sea of OblivionMy breath was frozen in time

Becoming eternal

A fallen angel's feather

Relied on me falling stillThrough the door of the human desire

I saw the land we are all looking for

Along our lives

There's no truth, there's no lie

Simply it is

Now and forever will be

An angel there staring at me

By that door he waits for meIn the silence, silent it came

A sudden stream of consciousness

Like a river flowing aside

From deep within, beside meA candle's light can be strong

Enough to light the deepest dark

The human will it can bring out

So strong to lead us the wayThrough the door of the human desire

I saw the land we are all looking for

Along our lives

There's no truth, there's no lie

Simply it is

Now and forever will be

An Angel there staring at me

By that door he waits for meFeelings that I can't tell heaven and hell at the same time

It's so cold here

Can't keep so much inside my thoughts are flowing out

Away from their nest to my chestThere's no black, there's no white

But all in between

The shades of a grey you can see

The colours are just a fantasy

Give my soul another me

There's so much that's left to say

Ain't gonna rush

Need time to find the right words

Need time to find the right way

Need someone to stop my rove
