

All Fall Down

[Lalaine](#)

It's a long lonely road
Where do I go
Looking for someplace that feels like home
Been searchin' so long
Where did I go wrong
Maybe the answer's somewhere beyond
The stars in the sky
And who knows why
[Hook:] We all fall down
Life's taking it's toll
It's all out of control
Yeah we all fall down
It's my dignity that's saving me tonight
As I walk through this maze
Is this just a phase

Will all my tomorrows be this way
The night is so black
In front and in back
Sometimes it's so dark and you don't know where you're at
Like a star way up high
Droppin' out of the sky
[Hook][Bridge:] Lift me up
So I can see
Outside of me
And what could be
A different life
[Hook-fade]
