Lust

Razed in Black

Take my lust, heat, love, painmy sin, abuse, force, gain
Sick in your eyes
this is love
sensual heat
take the blade and
cut me deep
boiling blood
watch me weep
all's determinedI exist for copulation of your mindI exist for confirmation of the beast inside
dirty thoughts for deviation of truth and lies
fantasies from realities with me you'll find
Lick my tongue, jewel, joy
rub
drench my affection
my inner thoughts
stimulate me
I crawl in desperationAttack my beast, devour
rape me on request
fuel my desire
kiss every inch of my skinfulfill the emptiness within
dirty thoughts for deviation of truth and lies
I exist for copulation of your mind
I exist for confirmation of the beast inside
fantasies from realities with me you'll find
my fetish you areLeave me obsessed
let my sweat drip upon you
caressed
I'll take the blame
for my demise
didn't say you were gonna lead me
I exist for copulation of your mind
big suprise
dirty thoughts for deviation of truth and liesI exist for confirmation of the beast inside
fantasies from realities with me you'll find
I exist for copulation of your mindI exist for confirmation of the beast inside
dirty thoughts for deviation of truth and lies
fantasies from realities with me you'll find
