

# One

## Soulfly

Come around, come around

Predatory jungle law

Come around, come around

Predatory jungle lawOne

One soul

One heart

One man

One truth

One tribe

One life

One godCome around, come around

Predatory jungle law

Come around, come around

Predatory jungle lawEmbrace one feeling left inside

The more we breathe

The more it takes my breath away

Everything you do

Everything in you

Everything you do and say

Doesn't wash it all awayCome around, come around

Predatory jungle law

Come around, come around

Predatory jungle lawOne

One fate

One rise

One sky

One breed

One pain

One Light

One fireCome around, come around

Predatory jungle law

Come around, come around

Predatory jungle lawEmbrace one feeling left inside

The more we breathe

The more it takes my breath away

Everything you do

Everything in you

Everything you do and say

Doesn't wash it all awayCome around, come around

Predatory jungle law  
Come around, come around  
Predatory jungle law
