

Keep The Faith

Black Oak Arkansas

When troubles got you down
And sorrow's all around
If you think your loves all been in vain
Just cry to end the pain Please keep the faith, we need it You look for a way out
Of this sea of doubt
It looks hard I understand
Swimmin' when you can't see land Please keep the faith, we need it You need to see the country
But something holds you back
Travel near, far, and wide
Have no fear or nothing to hide Please keep the faith, we need it If your tired of the human race
And you can't find yourself in pace
There's too many games goin' round
And the Man's tryin' to bring you down Please keep the faith, we need it
