Hey don't take your life away
I think you'd rather stay
Then follow me into the alleyway
We were passers on the street
I never thought we'd meet until I said
"How do you do, my love?" You'll fall
You'll fall Hey don't stop and turn away
I'm sure you'd rather stay
Than follow me into the alleyway
We were passers on the street
Don't turn it into grief
Just follow me into disaster You'll fall
You'll fall
