

# Almost

## Harmonia 76

I was mad as hell at you  
Walked out with intentions to  
    Get up with this honey  
    I just met on Monday  
    'Cause I knew she was down  
We went and had a drink or two  
    But all I did was think of you  
    And how I really love you  
    In spite of all our troubles  
    And so I stop myself  
This is straight from the horse's mouth  
I almost kissed her, and almost did her  
    And almost went there with her  
And I thought about you wouldn't bounce  
    I know it's not that easy girl  
    But you gotta believe me girl  
    'Cause baby I ain't lyin'  
    I'm just sick of fightin'  
    And arguin' with you  
    Baby, why can't we be?  
    The way that we  
    Were once before  
    And you weren't getting on mine  
And I wasn't getting on your last nerve

This is straight from the horse's mouth  
I almost kissed her, and almost did her  
    And almost went there with her  
And I thought about you wouldn't bounce  
    I was wrong, I was all wrong yesterday  
    Should've never left you feeling that way  
    I apologize for makin' you cry  
    Baby please forgive me  
This is straight from the horse's mouth  
I almost kissed her, and almost did her  
    And almost went there with her  
And I thought about you wouldn't bounce  
This is straight from the horse's mouth  
I almost kissed her, and almost did her

And almost went there with her  
And I thought about you wouldn't bounce  
This is straight from the horse's mouth  
I almost kissed her, and almost did her  
And almost went there with her  
And I thought about you wouldn't bounce  
This is straight from the horse's mouth  
I almost kissed her, and almost did her  
And almost went there with her
