Someone Wake Me Up

Joe Mcelderry

You're in the wrong place
At the right time
You got the wrong face
But all the right lines
Now I'm all out of phase
It's all about a state of my mind
You got me sky high
Like rockets in flight
Now something in my head
Just don't feel right
Don't you go and say it
Don't you go and cross this line
Don't say I love you
Say I love you, say I love you
'Cause that would drive me crazy
When I see stop signs
I'm gonna run them down
When I see red lights
I'm gonna hit the ground
What you've done to me
Turning my world upside down
Someone wake me up
Someone wake me up
You're kinda lowlife
Comes at a price
Keeps on feeding my appetite
And now you are my habit
Giving me a natural high
The more I keep on running away from you
Don't know what to say
Don't know what to do
Don't you go ahead and say it
Don't you go and cross this line
Don't say I love you
Say I love you, say I love you
'Cause that would drive me crazy
When I see stop signs
I'm gonna run them down
When I see red lights

I'm gonna hit the ground
What you've done to me
Turning my world upside down
Someone wake me up
Someone wake me up
When I see stop signs
I'm gonna run them down
When I see red lights
I'm gonna hit the ground
What you've done to me
Turning my world upside down
Someone wake me up
Someone wake me up
How could I not see
You pulling me in?
When will I see the end begin?
What a fool I have been
Lift me from the state I'm in
Yeah
Someone wake me up
Someone wake me up
When I see stop signs
I'm gonna run them down
When I see red lights
I'm gonna hit the ground
What you've done to me
Turning my world upside down
Someone wake me up
Someone wake me
