

# Ka Sera Sera

## Funkdoobiest

We used to go to school with this girl  
She wore the fat truck earrings an' the diamonds an' pearls  
Angel on the catfish, straight 'A' scholarship  
Smart career, had it all, all brains an' I'll admit With the face of a goddess, packed a real boddess  
I mean nobody was the hottest  
Around the way fine, she was lookin' real decent  
Graduated soon, I ain't seen her recent 'Til one night I rolled out pretty far  
She was shakin' her ass an' gettin' loud at the bar  
90 pounds heavy with the rolls on her belly  
An' her underarms smelly What happened to my class queen?  
I mean her breath was stinkin'  
[Incomprehensible] off with the apple sheen  
Speed freak in a G-string, dancin'  
Teasin' me, plus tellin' me I'm handsome  
Looked like she had enough to keep herself up  
That's what they told me 'cause I had swelter Ka sera sera, what's meant to be, it's gonna be  
Ka sera sera, what's meant to be, it's gonna be We used to run around town in static cane  
My crew was automatically down, drinkin'  
Hangin' with the fellas on the corner  
This fool pulled up, replied, You're a goner Payback's a bitch an' you best watch your back  
I laughed in his face, he was grazed off tracks  
He rolled out angry, homie look alert  
Fuck that, we don't need no one hurt Off the trouble, nine scents of manic depressant  
Crack that adolescent, tell one doubt not  
I heard her shout bang out right on the corner  
Where all my homies hang out  
He killed the boy, all unexpected  
Now he thinks his hood should respect him No one should die 'cause of me  
I scalped your bitch an' ruptured her spline  
Me an' my crew know where he stay at  
Fools been warned so here's your payback Ka sera sera, what's meant to be, it's gonna be  
Ka sera sera, what's meant to be, it's gonna be  
Ka sera sera, what's meant to be, it's gonna be  
Ka sera sera, what's meant to be, it's gonna be Ka sera sera  
Ka sera sera  
Ka sera sera
