

My Favorite Thing (feat. Ronald Isley)

Kem

My baby won't talk to me
She giving me the third degree
The peace is sure 'nough disturbed
I know I'm just gettin' on her nerve
She's the only one I need
We were truly meant to be
Can't nobody keep it real like my girl
Nobody in the whole wide world Come home to me, girl
I need you
I know it's hard to see, no no no, yeah
Your love will always be my favorite thing So if you meet her on Facebook, Tweet me
My baby is the only one I freaks see
She can give it up for so long
Got a brother waitin' by the phone
And I love her like sweet potato pie
Her forever put a twinkle in mine
Cold blooded but I can't get enough
Ooh I love that girl so much Come home to me
(Girl) come on home babe
I need you, oh I need you
I know it's hard to see (I know, I know, I know, I know)
(Yeah) your love will always be (always alway)
My favorite thing Lil' mama is my favorite thing
She the kind of girl that make your heart sing
Like a fountain of love that you can't understand
I know her body like the back of my hands
Enormous strength from way down inside
Tenderoni take the words out your mouth
And the power of her love make you feel so good
That's why I love her like a grown man should There goes my baby girl (my baby girl)
She is my favorite thing
There goes my whole world
I love her always
My favorite thing (Yeah) my favorite thing
Favorite thing (oh why)
My favorite thing oh yeah
(She's my whole wide world) my favorite thing
My favorite thing ooh yeah, oh
My favorite thing, yeah, (favorite thing yeah)

(My favorite thing)
Favorite thing, girl
(My favorite thing)
Ooh yeah, baby, oh my, ooh You know, she my (my favorite thing)
You're my favorite thing (I know I know I know)
Favorite thing oh whoa yeah
Yeah yeah, hey babe (My favorite thing)
(My my my my my)
Favorite thing
(My favorite thing)
