

# Plug Me In

## Squarepusher

I've got to get in sync with you  
Do you wanna sync up with me?  
Twenty-four bits a night  
Is all I need to do it right  
Twenty-four clicks with beats  
Is all I need to feel the heat  
Synchronize our soul  
Baby that's how we roll

I'm going to show you how I do it  
Do you wanna see how it works?  
This precious wire-linked device  
Is all I need to synchronize  
Fresh off the studio  
You can see its signal flow  
Never thought it could be  
You'd be in sync with me

Chorus:  
Plug me in baby  
My five-pin DIN is going crazy  
Plug me in baby  
Gotta plug in the lead  
Gonna get the sync I need  
(Now I get the sync I need)

Doo doo doo...

Twenty-four clicks a night  
Is all I need to do it right  
Twenty-four clicks with beats  
Is all I need to feel the heat  
Synchronize our soul  
Baby that's how we roll

(Chorus:)
