Slingshots

Ghost Mice

Love me when nobody else can see
Touch my soul, then treat me like I am a stranger
This is not the way I want to feel
Should have known a love this strong
Would bring some dangerBut if it's all in my head
I'll find a way to make it end
It's magic and it's tragicSlingshots whisper my teardrops an answer
What am I to you
Slingshots you forgot my kisses don't miss this
What am I to youShame, how you got me
Ripping words off my lips to keep from asking
I fall when you call
Press my ear against the phone to hear your lips moveI guess it's all in my head
And in time I'll make amends
It's magic but it's so tragicI want you so bad
What's wrong with me baby
I want you so bad
What's wrong with you babyLove me when nobody else can see
Touch my soul then treat me like a stranger
This is not the way I like to feel
I should have known a love this strong
Would bring some dangerSlingshots whisper my teardrops an answer
What am I to you
Slingshots you forgot my kisses don't miss this
What am I to youBeads fall from a delicate string
My love is too strong to want you
In the way we've been taught to take
