

Closer (feat. Natalie Taylor)

New Heights

I'm finding a way to approach you
As soon as you walk into the room
You're holding a veil that I see through

And I'm already pulled by the way you move
Right now, I can't believe what I'm feeling somehow
I felt the beating, your chest

The moment that our eyes first met
When the song hit, and you pulled me over
Just want to get closer
From the time that I noticed your lips
We were dancing, I was holding your hips
Til the last song, don't want it to be over
Just want to get closer
Trying my best not to fall through
And it's taking everything I got
I'm finding a way just to get you

Closer to me, cause I know you're not
Right now, I can't believe what I'm feeling
I felt the beating, your chest
The moment that our eyes first met

When the song hit, and you pulled me over
Just want to get closer
From the time that I noticed your lips
We were dancing, I was holding your hips
Til the last song, don't want it to be over
Just want to get closer
Do you feel what I'm feeling?
Gotta show me where to start
Can't believe what I'm seein
You could make me fall apart

You could make me fall apart
Ooh Baby, I'm holding strong too
I felt the beating, your chest

The moment that our eyes first met
And the song hit, and you pulled me over
Just want to get closer
From the time that I noticed your lips
We were dancing, I was holding your hips
Til the last song, don't want it to be over
Just want to get closer
Ooh
Ho ooh ah
Just want to get closer

(Just want to get closer)
(Just want to get closer (whoo))
From the time that I noticed your lips
We were dancing, I was holding your hips
Til the last song, don't want it to be over
Just want to get closer
