# Blinded

## Religious As Fuck

Turn me out then turn me on
Pretty flower cannot you tell me
What's become of who we are
Only asking what you'd like tonight
We'll take America
Just shake my tits and ass
Yeah, we'll go far
And if we wanted more
Then that was only what we thought our right was
Only wanted more
But we were always blinded
Here we want to try
But I can't try to be as plain as daylight
Looking to the world
But we were always blinded
Sell a little bit to you
A circus sideshow but the makeup's shining through, it's not so bad
Is there anyone to know?
Forget my politics, just sex me 'til I'm done, it's not so hard
And if we wanted more
Then that was only what we thought our right was
Only wanted more
But we were always blinded
Here we want to try
But I can try to be as plain as daylight

Looking to the world
But we were always blinded
And all the stars are out for you
And everybody's hiding here
And all the stars have come unglued
But everybody, everybody's changing
We're changing
We're changing
And if we wanted more
Then that was only what we thought our right was
Only wanted more
But we were always blinded
Here we want to try

But I can't try to be as plain as daylight
Looking to the world
But we were always blinded, always blinded
And all the stars are out for you
And everybody's hiding here
And all the stars have come unglued
But everybody, everybody's changing
We're changing
We're changing
Thank you
