

You Have Me

[Gungor](#)

Out on the farthest edge
There in the silence
You were there My faith was torn to shreds
Heart in the balance
And You were there Always faithful, always good
You still have me
You still have my heart I thought I had seen the end
Everything broken
But You were there I've wandered at heaven's gates
I've made my bed in hell
You were there still Always faithful, always good
You still have me
You still have my heart You have me, You have me
You have my heart completely
You have me, You have me
You have my heart completely You have me, You have me
You have my heart completely
You have me, You have me
You have my heart You have me, You have me
You have my heart completely
You have me, You have me
You have my heart completely
