

Please, Don't Take My Love

Emily Hearn

I don't need much
need much at all
Go on, you can rob me blind
I would still have what i want
i don't need diamonds
or big fancy cars.
mmmm
we might never be rich folks
but i like how we are
chorus: you can take the moon and the stars that shine
you can take most anything
you can take whatever i call mine
But please, don't take my love away
Never believed that the best things were free
until i felt like a millionaire
with you next to me
cause we've got the laughter
you can make my heart sing
Oh darling! when i can't find the tune
you are my harmony
(repeat chorus) you've seen all the broken parts of me
nobody else in the world knows the heart of me
quite like the way you do and i cant quit loving you
you are the only thing that i need.
you can take the moon and the stars that shine
you can take most anything
you can take whatever i call mine
But please, don't take my love
Please, don't take my love
Please, don't take my love
