

Tell Me the Reasons

Jean B. Gerbier

Tell me the reasons

When you postpone our date last summer.
You were candid about your reasons.
It was surprising but unfair.
I want my mind, heart and soul to be sustainable.

Chorus

Tell me the reasons, you left me broken hearted.
Tell me the reasons, you distract our love affair.
Tell me the reasons, can you relieve my sorrow.

While some stigma still exists, I want to take sometimes
to deal with the stress, you are putting me through.
want my mind, heart and soul to be sustainable.
