

My Girls (feat. Peaches)

[Christina Aguilera](#)

My girls wear lipstick while they're making my beats
They got guitar picks in their purses, Louboutin on their feet
They got no time for waiting in lines
They got sex and 808's running through their dirty minds
My girls, we running the show
My girls, we're teasing all the boys on the go
My girls, 'cause that's the way that we roll
My girls, so ladies step it up and take control
Now shout, my girls, we stronger than one
Now shout and sometimes we gotta have fun
My girls headed to the city y'all
We got Cosmo on the dash and tickets on the floor
We got Sia and Rola and Peaches too
We got Johanna and JD and we're coming for you
My girls, we running the show
My girls, we're teasing all the boys on the go
My girls, 'cause that's the way that we roll
My girls, so ladies step it up and take control
Now shout, my girls, we stronger than one
Now shout and sometimes we gotta have fun
My girls are screaming and yelling, and getting loud
My girls are shaking up the party while you're getting down
My girls are singing and dancing, and having fun
My girls are cooking up a beat and they want you to come
Peaches
My girls stay close when there's some trouble
around
They got jewels on their fingers, it's about to go down
We got no time for haters you know
We just came to party, come on now, here we go
My girls, we running the show
My girls, we're teasing all the boys on the go
My girls, 'cause that's the way that we roll
My girls, so ladies step it up and take control
Now shout, my girls, we stronger than one
Now shout and sometimes we gotta have fun
