DONâ€™T BRING THAT TROUBLE

NEEDTOBREATHE

Been down the broken road now Been through that fire
There's angels holding onto both sides of the wire
I'm lacking what I need to carry you through it
Stay back or get on track 'cause I can't have you ruin itI said Hold on but don't hold me back
Hold on but don't hold me back
Hold on but don't hold me back
Just hold onI had it rough, I had to move for awhile
Lock down the house and chain it up with denial
I'm coming home and everyone is invited singin'
Don't bring that trouble with you
Don't bring that trouble with youI found the way around you Gonna take me higher
Last time the way I loved you Just wound up tired
I'm lacking what I need to carry you through it
Stay back or get on track cause I can't have you ruin itI said Hold on but don't hold me back
Hold on but don't hold me back
Hold on but don't hold me back, Just hold onI had it rough, I had to move for awhile
Lock down the house and chain it up with denial
I'm coming home and everyone is invited singin'Don't bring that trouble with you, don't bring that trouble with you
Don't bring that trouble with you now, don't bring that trouble with youI had it rough, I had to move for awhile
Lock down the house and chain it up with denial
I'm coming home and everyone is invited singin'
Don't bring that trouble with you
Don't bring that trouble with youI had it rough, I had to move for awhile
Lock down the house and chain it up with denial
I'm coming home and everyone is invited singin'
(Don't bring that trouble with you)
