

Lights Go Out

Fozzy

When the lights go out
And the mercury rises
Angels fall to the other side
 Fear meets lust
 Just us colliding
When the lights go out
 We own the night

 Blood red pumps
 Up against your body
 Beating like drums
 Sucked in the fire
 Wrong feels right
 Don't try to fight it
 Cause the night dissolves
 Into desire

When the lights go out
The walls come down
 We sound
 Just like animals
 inhibitions lost
 And lines get crossed
 You get me off
When the lights go out

 Now I lay you down
 But no ones sleeping
 Now I lay you down
 Here in the dark

 Lights go out
 To shouts and screaming
 No one gets out
 Without a scar

When the lights go out
The walls come down
 We sound
 Just like animals

inhibitions lost
And lines get crossed
You get me off
When the lights go out

I can feel it coming
Feel your body humming
Pushing buttons
When the lights go
Lights go

I can feel it coming
Feel your body humming
Self destructing
When the lights go
Lights go

When the lights go out
The walls come down
We sound
Just like animals
inhibitions lost
And lines get crossed
You get me off
When the lights go

When the lights go out
The walls come down
We sound
Just like animals
inhibitions lost
And lines get crossed
You get me off
When the lights go out

When the lights go out
