

Don't Let Me Go

Gangs of Ballet

It was the strangest thing I've seen
I looked at her, she looked like me
Although our heads were separate parts
we gave ourselves, we fused two hearts
We knew tomorrow would be our new day
Two voices caught in time, I sound like yours
you sound like mine
Without your sight my eyes are weak
I am your arms, you are my feet
And tomorrow could be our new day
Please don't let me go
I said please don't let me go
With the world outside of our doors
I'll be safe here in your arms
I said please don't let me go
Don't let me go
Oho oh ho ho ohohoho x4
And tomorrow could be
Oh tomorrow could be our new day
Please don't let me go
I said please don't let me go
With the world outside of our doors
I'll be safe here in your arms
I said please don't let me go
Oho oh ho ho ohohoho x4
