

# Ladybird

## Ladytron

Once there was a young girl  
But old enough to know girl  
Went by the name of Ladybird Charmed you with the one hand  
And broke you in the next hand  
Then she'd be gone out of your life If you've got time  
(If you've got time)  
And you're ever to change her mind  
(To change her mind)  
You'll need more than a glass of wine  
She's not that kind of girl You'll never win  
(You'll never win)  
'Cause she leaves when you think you're in  
(You think you're in)  
Doesn't care if it's her or him  
She's not that kind of girl Mornings are the cruelest  
No, no, no, nothing more or less  
Just slept with the thought of Ladybird Everywhere you see her  
Her new possession with her  
Don't warn them, they're not listenin' to you If you've got time  
(If you've got time)  
And you're ever to change her mind  
(To change her mind)  
You'll need more than a glass of wine  
She's not that kind of girl You'll never win  
(You'll never win)  
'Cause she leaves when you think you're in  
(You think you're in)  
Doesn't care if it's her or him  
She's not that kind of girl If you've got time  
(If you've got time)  
And you're ever to change her mind  
(To change her mind)  
You'll need more than a glass of wine  
She's not that kind of girl You'll never win  
(You'll never win)  
'Cause she leaves when you think you're in  
(You think you're in)  
Doesn't care if it's her or him  
She's not that kind of girl If you've got time

(If you've got time)  
And you're ever to change her mind  
(To change her mind)  
You'll need more than a glass of wine  
She's not that kind of girl You'll never win  
(You'll never win)  
'Cause she leaves when you think you're in  
(You think you're in)  
Doesn't care if it's her or him  
She's not that kind of girl
