

Not Leaving Without You

Paris Hilton

I got my eye on you, boy, I got my eye on you, boy
And when I get my eye on something it's like search and destroy
There's no runnin' away, not a game that I play
I wanna get to know ya, so come on We can dance, we can dance
We can dance, we can dance tonight
Come on just move your body
Come on just move your body We can dance, we can dance
We can dance, we can dance tonight
'Cuz you're the one that I like Don't ask me for my number
'Cuz my number's undercover
Don't tell me that you're going
I just got here and I'm hoping
I'm not leaving without you
I'm not leaving without you So stop looking at the clock 'cuz baby time's on my side
Tick tock, tick tock, soon you'll be mine
I wanna know things about you
I'm not leaving without you We can dance, we can dance
We can dance, we can dance tonight
Come on just move your body
Come on just move your body So whatcha got on your mind?
Whatcha got don't hide
I need to know that there is
Something more to you than those eyes I need someone who's sweet
Someone who wants me for me
And when I'm not around
He's not gonna cheat We can dance, we can dance
We can dance, we can dance tonight
Come on just move your body
Come on just move your body We can dance, we can dance
We can dance, we can dance tonight
'Cuz you're the one that I like Don't ask me for my number
'Cuz my number's undercover
Don't tell me that you're going
I just got here and I'm hoping
I'm not leaving without you
I'm not leaving without you So stop looking at the clock 'cuz baby time's on my side
Tick tock, tick tock, soon you'll be mine
I wanna know things about you
I'm not leaving without you We can dance, we can dance

We can dance, we can dance tonight
Come on just move your body
Come on just move your body I wanna know whatcha dream about
I wanna know whatcha thinking now I wanna know whatcha dream about
I wanna know whatcha thinking now
And when the lights go down and you come around
Let me see what it's all about I wanna know whatcha dream about
I wanna know whatcha thinking now
And when the lights go down and you come around
Let me see what it's all about I wanna know whatcha dream about
I wanna know whatcha thinking now
And when the lights go down and you come around
Let me see what it's all about
