# Leave Me Alone

## Naked Aggression

No, no, no, no, no, no, no, no!I listen to you patiently as shit flows from your mouth
This feeling grows inside, I want to shut you up
I've heard it all before, don't want to hear it anymore
I don't know what I'm going to do, I need to get away from you right nowFucking jerk! leave me alone!
People try to fuck with my head every single day
So many sexist pigs who should be locked away
I'm not a piece of meat put on this earth so you can fuck me
I'm a human being and I refuse to tolerate your disrespectFucking jerk! leave me alone!I'm not your goddamn baby I'm not your fucking whore
If you don't understand that then talking won't work anymore
I'm going to get a gun and kill everyone
I demand respect, I won't stand for less
And if you don't understand I'll blow you away
If you won't comprehend, I'll blow you away
If you don't respect me, I'll blow you away
I'm gonna buy a gun and I'll blow you away!No, no, no, no, no, no, no, no!I listen to you patiently as shit flows from your mouth
This feeling grows inside, I want to shut you up
I've heard it all before, don't want to hear it anymore
I don't know what I'm going to do, I need to get away from you right nowFucking jerk! leave me alone!
