

# Stabat Mater Dolorosa

Miike Takeshi

[Lyrics by RMS Hreidmarr]We are the Sun  
We are the dead stars  
We are the black sky  
Invading your room  
We are the candle  
The only light  
We are the machines of the past  
Forever victims and murderers of your joyWe are Death  
The ancient knowledge  
The source of origin  
The red and white sacred hatred  
Enthroned, materialized  
The wrath of heaven and hell united in one  
Worship us, be faithful  
Beautiful great and cursedVexilla regis prodeunt, fulget crucis mysterium  
Vexilla regis prodeunt inferniWe are the...  
Mother of suffering  
Bringer of virtue  
Possess the Holy, drink the wine  
Arise my son, follow me  
I've felt the wounds of our raceWe are the shadows of all your fathers  
The ancestors of those who suffer  
Come, when my hand will die upon  
Thy forehead, you'll breath in the flamesStabat Mater Dolorosa, fulget crucis mysterium  
Stabat Mater Dolorosa, vexilla regis prodeuntBe without doubt as you've been without weakness  
We will open the five roses  
We will awake the seven churches of the final confrontationMother of suffering  
Hater of mercy, divine whore  
Mother of fanatics  
Be sure we'll meet againStabat Mater Dolorosa, fulget crucis mysterium  
Stabat Mater Dolorosa, vexilla regis prodeuntChatiee d'etre nee putain  
Non, chatiee d'etre nee trop tard  
Une seule nuit ne suffit plus  
A nous separer du paradis perduMother of suffering  
Hater of mercy, divine whore  
Mother of fanatics  
Hold me, we'll be united as oneStabat Mater DolorosaTo serve and to obey  
Here is your tragic destiny  
Your only choice is the name of your Lord and Everything

Your illusion of madness and liberty  
Sealed your eternal enslavement  
Slaves to your race We are the Sun  
We are the dead stars  
We are the night sky  
We are the New Obscurantis Order New Obscurantis Order
