

Love Sensation

Grand Design

Don't go changing, rearranging
Don't go changing, rearranging
Hold on to a love sensation
If you ever go away
That would be my darkest day
We've been drawn together
By love's chemistry
I was born to be by your side
Sure as the river meets the sea
We've only known each other
For a little while but you're my destiny
I would move all Heaven and Earth
Just to set you free
In lover's liberty
Inject the chemistry
That's gonna move you
Never gonna lose you
Don't go changing, rearranging
Hold on to a love sensation
If you ever go away
That would be my darkest day

Lately I've been seeing
A little doubt in your eyes
You used to call me every day
And say the things
To keep me satisfied
I would move all Heaven and Earth
Just to set you free
In lover's liberty
Inject the chemistry
That's gonna move you
Never gonna lose you
Don't go changing, rearranging
Hold on to a love sensation
If you ever go away
That would be my darkest day
Don't go changing, rearranging
Hold on to a love sensation

There's a power energy
That only flows from you to me
