

Out of My Head

[Brett Dennen](#)

Get outta my head, outta my head, outta my head now.
Get outta my head, get into my heart.
Get outta my head, outta my head, outta my now.
Get outta my head, get into my heart. Without you I do believe I'm homeless and without,
And without you, it's true. I'm out of focus.
Got go now, I know now if I can can't live with you I will Without me you'll be stuck in a pattern and without
me, you'll see
It doesn't matter who you're made at
I've had that happen and I won't have that happen anymore. Why don't it go boom boom boom
Give me love, give me love, give me love now.
Boom boom boom
Any you get it back and you get it back Get outta my head, outta my head, outta my head, head now.
Get outta my head, outta my head, outta my no, get into my heart.
Get outta my head, outta my head, outta my head, head now.
Get outta of my head, outta my head, outta my no, get into my heart. Get into my heart Thought I'd changed
inside,
So I went up into the mountains and climbed.
I got away from all the static and the sadness.
I won't be caught up in that anymore Why don't it go, boom boom boom
Give me love, give me love, give me love now.
Boom boom boom.
And you get it back, and you get it.
Boom boom boom
Give me love, give me love, give me love now.
Boom boom boom
And you get it back, and you get it. Get outta my head, outta my head, outta my head now.
Get outta my head, get into my heart.
Get outta my head, outta my head, outta my now.
Get outta my head, get into my heart. Outta my head, outta my head
Out of my head, no
Get outta my head, outta my head, outta my head, head
Get outta of my head, no.
Get outta my head, no. Get outta my head, outta my head, outta my head now.
Get outta my head, get into my heart.
Get outta my head, outta my head, outta my now.
Get outta my head, get into my heart.
