

Casualties

Ready Never

Its just a matter of time you'll see, my casualties my casualties
Its not a matter of when or why, my casualties, my casualties
In a world of distractions, we have got places to go,
people to see
Everyone's going to fix it "when I'm done"
In a world of destruction, there is no where to go, nothing to see
Everyone's going to fix it "when Im done"
Its just a matter of time you'll see, my casualties, my casualties
Its not a matter of when or why, my casualties, my casualties
Hey, yey , yey, yo
Staring at all my casualties
Waiting for your reaction
It is certainly slow, know what I mean, Don't tell me so
Everyone says they don't see any harm
And it is time to take action, you are late for the show, not make believe, it is going to blow, everyone waits for
sounds of an alram
The sound of television tells me when I am done
Its just a matter of time you'll see, my
casualties my casualties
Its not a matter of when or why, my casualties, my casualties
Hey, yey, yey, yo
Staring at all my casualties
Hey you feel I say my casualties today I need to pay my good old casualties
It's not a
matter of when
It's not a matter of why
It's just a matter of good old casualties
It's not a matter of How
Its not a matter of why
It's just a matter of good old casualties
