

# She's So Lovely

## Beach House

She's so lovely  
Everything about her  
Mannerisms of another Castles in the sand  
Money in your hand  
And all I have to do  
Is everything for you From the way that her eyes are shaped  
It's making me sick With her head on my shoulder  
Waking up barely just to believe For her dinner  
Baby pink lavender  
Leather white umbrella sinner She's so lovely  
Everything about her  
Mannerisms of another Castles in the sand  
Money in your hand  
And all I have to do  
Is stay away from you
