

People Are People

Genio

People are PeopleRefr: /: People are people
wherever I see them
people are people
wherever I meet them
yellow is yellow
red is red
brown is brown
black is black
white is white
colour is colour :/This earth is my home
I have nowhere else to go
I try to get along
with the people I meet
sometimes its really hard
other times I do succeed
but I dont understand
why all this fight
RefrSomeone once said
that this world will be taken in
Im sure thats right
but I dont wanna forget to dream
someone can crash me down
other can lift me up
it isnt always easy to know
what kind of people I meet
RefrWherever Im on my way
I meet people on their way
I dont wanna change people
I only wanna live my way
the more I let people be people
the more I can be myself
yeah people wanna be themselves
and live their own way
Refr
