

# Shelter For A Rainy Day

## 2 Unlimited

Oh

Shelter on a rainy day  
You may need me like I need you  
I see the clouds gathering in the sky  
When my worries, fill my mind  
What to call us, begins to fade  
I wanna be with you if it's starts to rain  
'Cause I can hide in your arms  
So safe and one  
With you as my protection  
To help me through the storm, ooh  
You give me shelter on a rainy day  
You're all that I'm needed when clouds are turning gray  
You give me shelter on a rainy day  
My tears have lost their meaning, love has washed them all away  
You washed my tears away yeah, yeah, yeah  
If inside your heart it starts to rain  
Just call me up, I'll ease the pain  
You don't ever need to be alone  
When the wind, begins to mourn  
'Cause whenever you may need me  
Like I need you  
Then let me be right by your side  
And love will see it through  
You give me shelter on a rainy day  
You're all that I'm needed when clouds are turning gray  
  
You give me shelter on a rainy day  
My tears have lost their meaning, love has washed them all away  
You give me shelter on a rainy day  
You are all that I'm needed when clouds are turning gray  
You give me shelter on a rainy day  
My tears have lost their meaning, love has washed them all away  
A shelter on a rainy day  
A lucky warm place for you and I to stay  
Hmm, what you're thinking?  
No tell me no lies 'cause your eyes are blinking  
There's a place girl, down deep in my heart  
You know the feeling, a relationship to start

I send my love without delay  
'Cause you know I've got a shelter on a rain day  
You give me shelter, hey  
Your love has washed them all away  
You give me shelter on a rainy day  
You're all that I'm needed when clouds are turning gray  
You give me shelter on a rainy day  
My tears have lost their meaning, love has washed them all away  
You give me shelter on a rainy day  
You're all that I'm needed when clouds are turning gray  
You give me shelter on a rainy day  
My tears have lost their meaning, love has washed them all away
