

# Create / Destroy

## Art vs. Science

( Intro )Do-do doo-do doo do-do. x4There were two of us one time.  
What a crazy thing to do.  
It was just a little lie.  
Made me want to start again.Then it turned into a storm.  
Day by day by fearful day.  
When I looked into her eyes.  
Suddenly felt home again, for a little while.Put together to destroy, make it something beautiful. x4And the  
summer rain lay ahead.  
Day by day by blissful day.  
But the autumn leaves would fall.  
And everything would start again. Oh my.Why would you destroy when there is so much to create?  
Would you live a lie if you could keep it all the same?  
Can we make a dream out of this nightmare that we've made?  
Is it better that we go our separate ways?Put together to destroy, make it something beautiful. x4( Interlude  
)Why would you destroy when there is so much to create?  
Would you live a lie if you could keep it all the same?  
Can we make a dream out of this nightmare that we've made?  
Is it better that we go our separate ways?x2Put together to destroy, make it something beautiful. x4Do-do doo-  
do doo do-do. x4
