# Strawberry Heart

## Joy Electric

My love my love are words you used to say Before the days the light
went dark in you When I look back our whole lives
disappear I'm longing for the way it used to beCHORUS
Strawberry heart
hold my hand before
we fall apart
strawberry heart
kiss me once before
our love departsWe used to be lost in each others eyes And everyday seemed like a
new suprise Why can't it be like yesterday one more time
For all the years I give my life to you
