

Instinct

BB Diamond

[Chorus:]

I got that instinct about you
I got that instinct when I'm around you
I got that instinct about you
I got that instinct when I think of you[Verse 1:]
I don't usually hang around
In places I am easily found
It's not my style to act like this
I played it safe won't take the risk
Move closer, I could feel you
I know what I have to do[Pre-Chorus:]
I don't want to do this
But you have got me hanging around for you
I don't know where this is leading
But I can't deny this feeling inside
Oh it feels so right[Chorus:]
I got that instinct about you
I got that instinct when I'm around you
I got that instinct about you
I got that instinct when I think of you[Verse 2:]
I guess I've broken every rule
I shouldn't be hanging out approaching you
I can't seem to hold this back
I know I shouldn't let this moment pass
When I saw ya, like the way I do
That no one else would do, do[Pre-Chorus:]
I don't want to do this
But you have got me hanging around for you
I don't know where this is leading
But I can't deny this feeling inside
Oh it feels so right[Chorus: 2x]
I got that instinct about you
I got that instinct when I'm around you
I got that instinct about you
I got that instinct when I think of you[Bridge:]
I got these feelings about you
I hope that you really feel me too
I got these feelings about you
I hope that you really feel me too

(Just say that you want me)[Chorus:]
I got that instinct about you
I got that instinct when I'm around you
I got that instinct about you
I got that instinct when I think of you
