Butchered at Birth

Cannibal Corpse

Birth is always painful
Decaying in the womb trapped within this body
A bleeding human tomb
Gutted bitch lies dead emptied of the childChewing on the cords
It's life line to this world afterbirth is flowing
The stench is overwhelming
My body growing stronger, my pain turns to tortureSevering it's bloodline, a butchered infant carcass
Meat from the unborn, the freshest kills
Chopped up children bathing in blood
Contoured and festering I rot in disgustRegeneration of my body, mother ripped apart
Smashing in her face
My knife cutting holes, fucking her remains
Esophagus carved outCrushing cartilage
Bile oozing from punctures in your liver
Riping meat within, chewing in intestine
Bladder spurting urine, sight of defecation now grow infectionThe child ripped to shreds
Drinking its excretions
Zombification ejaculation over mutilation
On the mothers body hacked into piecesThe sludges from my cock gives her life once again
Sewing the remains of the child deep within her
Reborn through evil
My torture known throughout HellHeed to his calling, the demons await my next kill
Carnage is my fetish
Body cavities scraped of guts
Brains seeping from cracks as my axe continues to hack
