

Beauty In Life

Air This Side of Caution

So you say you can't sit
Well stand if you like
I don't really care
You pace around the room
Waving your arms
In circles through the air
But all this will not change
A single thing
You're still not enough to share

So won't you slowly
Release my hand?
You'll see that

There's so much beauty in life
There's so much beauty in life
There's so much beauty in life
More than we've seen with our eyes

So I'll be the one
Who stands in the front
Ridiculed by all
No, I don't think it's fun
But I'd feel much better
If you weren't so tall
You tower over me like a statue
Of yourself that was built to show your wealth
An imposition without the grounds
And I've seen you falling down

The days are dropping off like flies
And pretty soon this year will be
Just another one of those years
I've seen the way you look inside
All of the lives you claim that you have changed
Saved

Who are you to leave me here
Just so you can test my fears?
When I'm scared, I'll just sleep with the light on

And think that

There's so much beauty in life

There's so much beauty in life
