

# Dragonbreed

[SuidAkrA](#)

[Music & Lyrics by Suidakra]Somewhere in time along the trace  
Of decay to a darker land  
Exchange the mystery with human tragedy  
A regal path to an dead endStreams of fire from the eldest time  
They merge right here  
To pour the seeds of DeathTheir sight and breath  
An anthem to the kill  
To finally pass the crown  
To the emptinessOh here it lies, veiled in madness  
On the edge of sanitys precipice  
Oh here they fly, on shadow wings  
Eternity echoes of their criesWorship the tempest  
Feel the rapture of almightness  
To burn out and fall  
For their triumphal callHere is the darkest creature  
Reality ever beared  
Full of hate and wrath  
An herold of deathFor the dragonbreed  
Has grown in ashes  
They bear the evil seeds  
To fulefill the curs  
...To ravage the earth
