

In The Late Of Night

Toni Braxton

Always thought your promise was for life
I did not think that I
Would hear you say good bye
And I always heard you led another life
I doubted every time
I guess my love was blind
Cause in my eyes
Love was always something magical
But the feeling is so tragic for
And all I know is in love
The thing that I want most
I can't possess
There's only emptiness
In the late of night
Just before I closed my eyes
You lied
As you kissed me goodnight
In the late of night

Just before I closed my eyes
I cried
As you kissed my lips good-bye
In my eyes
You will always be the lucky one
Cause you know you'll always have my love
For all time until I die
Through the end I gave to you my best
You gave, you gave me loneliness
In the late of night
Just before I closed my eyes
You lied
As you kissed me goodnight
In the late of night
Just before I closed my eyes
I cried
As you kissed my lips good-bye
