

# Julia's Song

## Orchestral Manoeuvres in the Dark

The means to an end  
The sinful distress  
Of writing down mean in this words  
Vaguley I've had  
So the rest of the men  
Can learn bout the bees and the birds  
Constraint business man you haven't got it all  
Been at it to rule in your heart  
Stilletos and ? may be burning your eyes  
Kept you you for falling apart  
Inhibit generalize  
Sorted and wet  
Someone advised me to die  
Blowing your mind  
Cause you know what you'll find  
When you're looking for things in the sky  
Under the influence  
Rotting your nerves  
Cutting us off at the base  
Nearing the end is your grandmother's friend  
Something to do when it wrythes  
Something to do when it wrythes  
Something to do when it wrythes
