Likewise

Ability

Neither large nor small... high or low No agreement i become less
Will you let me have these things on my side until i'm able to stand them... likewise
As long as weakness remains I guess we'll suffer all the same
Neither large nor small... high or low Worthy to be followed
Will you let me have these things on my side until i'm able to stand them... likewise
As long as weakness remains I guess we'll suffer all the same
I don't want to complain... I just want to explain... First, let me get this right
Will you let me have these things on my side until i'm able to stand them... likewise
As long as weakness remains I guess we'll suffer all the same
