Bittersweet Goodbye

Kylie Minogue

Here we are in the dead of night
Will you keep me warm and hold me tight?
All we have is until the dawn
Let the night be long and ease the dawnI love you more than you'll ever know
It hurts to see you go
So darling sing me a lullaby, ah
Bittersweet goodbyeDon't think about the future now
These few hours
Let the nighttime envelop us, take us under
Bewitching spell, bewitching spellHere we are in the dead of night
Won't see you past the morning light
So darling sing me a lullaby
Bittersweet goodbyeRemember me when you're away, oh
