17

Chester Lockhart

Top of the world one day
Then it all went away
I don't know who I am
But I know there's hell to pay
If you do what you're told
They'll let you keep your soul
Do as they say
But I stray
Hey
Can you help me find my way home?
I can't get there on my own
You don't know what I've seen
I'm only 17
Can you find someone to love me?
I don't know anybody
Stories in silver screens
All Alone at 17
Drive your expensive car
Down sunset Boulevard
You make the girls run wild
But no one knows who you are
Chemicals in your hand
See through underwear
What does it cost?
Your heart is lost
Hey
Can you help me find my way home?
I can't get there on my own
You don't know what I've seen
I'm only 17
Can you find someone to love me?
I don't know anybody
Stories in silver screens
All Alone at 17
Life is the dark in the light of day
And. My dreams are so far away
The streets are so mean
I can't help but scream
Don't wanna be 17

So let the church bells ring
Give up on everything
And let the angels sing like
Â hum hum hum hum hum
Can you help me find my way home?
I can't get there on my own
You don't know what I've seen
I'm only 17
Can you find someone to love me?
I don't know anybody
Stories in silver screens
All Alone at 17
Can you help me find my way home?
I can't get there on my own
You don't know what I've seen
I'm only 17
Can you find someone to love me?
I don't know anybody
Stories in silver screens
All Alone at 17
