

Get Out The State

Spoon

I've been waiting here for so long
And I'm on the curb with everyone
And I'm fit for it and I'm ready again
Yeah, I'm fit for working again
So you understand just what they mean
Kids will go to such extremes

Like here's the answer
What's the question again? Oh, c'mon now
I kid you not should it take all night
Fill up the tank 'cause if it takes all day
We'll get out the state
