

As Love Is My Witness

Westlife

Once in a lifetime
You look in someone's eyes
And it feels like the world stops
Turning at once Well, that's what it felt like for me
I knew right away this day would be
Standing together, believing forever
Is there in our reach As love is my witness I swear
I'll be with you 'til the end
Nothing can tear this love apart
I'll put my hand upon my heart This is the promise I make to you
Whatever comes we'll see it through
Nothing can break it, feeling's too strong
As love is my witness We've both known sorrow
We have known heartache
When our dreams for tomorrow
Seemed so far away But that brought us closer, yeah
It brought us together
So that we'd know the real thing
That's why I can say As love is my witness, I swear
I'll be with you 'til the end
Nothing can tear this love apart
I'll put my hand upon my heart This is the promise I make to you
Whatever comes we'll see it through
Nothing can break it, this feeling's too strong
As love is my witness I know whatever comes to be
Together we'll face the mystery
Here in my heart, deep in my soul
Somehow I know, I know As love is my witness I swear
I'll be with you 'til the end
Nothing can tear this love apart
I'll put my hand upon my heart This is the promise I make to you
Whatever comes we'll see it through
Nothing can break it, the feeling's too strong
As love is my witness Nothing can break it, this feeling's too strong
As love is my witness
