Push

Dio

You've ridden on a carousel
So you know the feeling
As the ring slips through your fingers
Sometimes you justify it
There's the sword
And you're bleeding once again
Before you're in a corner
Can't crawl away
Here's a way to save you
You gotta push
Get out of my way and push
You can turn the wheel, push
One more push
You master the broken heart
And so you know the feeling
As your soul starts going under
Sometimes you rectify it
Then out of the blue

The hammer falls again
Before you're in the water
Can't sail away
Here's a way to save you
You gotta push
Break the body down, oh push
Out of my way, I'll push
You better push
You gotta push
Hands against the wall and push
Out of my way, we'll push
You can turn the wheel
Go on and push
Push
Push
Push
Push
